

Get Hardware Credits from the Suretek 2020 Technology Migration Program

Suretek's 2020 Technology Migration Program is here to help support customers with their 3G Upgrades.

Even though Telstra 3G network closures were announced for 2024, carriers have already shut down 3G on particular Mobile Base Stations and some new Mobile Base Stations have even been commissioned without 3G. So why wait?

Now is a great time to start your 3G upgrades, and benefit from our hardware credits.

Just swap out your 3G Alarm Communicators, any brand, any model, for a new Multicom Alarm Communicator to receive a \$45.00 hardware credit for each unit you upgrade.

Note: The hardware credit increases to \$55.00 ex GST for all customers who have their Surecall 1345 services with Suretek.

Our new Multicom Alarm Communicators support either 4G LTE or Cat M1 and NB-IoT, ensuring longevity of the equipment you are now deploying.

To support your 3G upgrade, the Suretek 2020 Technology Migration Program offers you the following:

A \$45.00* Hardware Credit Ex GST

(as an Account Credit) for each Alarm Communicator you deliver to Suretek, where you have replaced the Alarm Communicator with a new Multicom Alarm Communicator.

*The \$45.00 Hardware Credit is applied as a Credit against further purchases of Multicom Alarm Communicators, thereby reducing the overall cost of your program.

**\$55.00
Hardware
Credit for
Surecall
customers.**

CONDITIONS APPLY, INCLUDING:

- The Alarm Communicators you deliver to Suretek must have been replaced with New Multicom Alarm Communicators.
- For each Alarm Communicator you deliver to Suretek, the Serial Number of the new Multicom Alarm Communicator you have installed must be provided.
- The new Multicom Alarm Communicator must be on a Polling Plan for a minimum of 24 months, from the date of Activation – Under the Suretek 2020 Technology Migration Program.
- The Alarm Communicators you deliver to Suretek can be any brand and model, including Multicom and either 3G or 4G models.
